

Limerick College of Further Education, a long-established, state-funded and administered Further Education college is the second largest college of Further Education in Ireland. It is one of many centres of education run by LCETB.

The comprehensive range of courses available at LCFE displays The College’s ability to respond to national and local industry needs. LCFE’s cultivation of partnerships at local, regional, national and international levels is important and helps ensure a best practice, quality assured, unique approach to FET teaching and learning eg LCFE is a Smarter Travel Campus, has progression links with Tralee IT, Mary Immaculate College and University of Limerick and a Collaboration Agreement offering seamless learner progression from LCFE to LIT.

LCFE and LCFE Students have had many successes during the past academic year winning a College Awareness Award for Innovative and Creative Event ideas, First and Second place in the National Transport Authority’s Multimedia Awards, News Photographer of the Year and Sport Photographer of the Year at the National SMEDIA awards to name but a few.

Limerick College of Further Education provides high quality nationally and internationally recognised programmes which are designed to prepare learners for the workplace and, if required by the learner, to progress to higher-level awards in Institutes of Technology, Universities and other higher education institutions.
