

Here at LCFE, we have strived to create a safe and comfortable environment for all our staff and learners. New practices and procedures have been implemented in accordance with government and public health guidelines.

LCFE has adopted a blended learning approach for the academic year 2020/2021, using a mix of online delivery and face-to-face classes with restricted numbers and physical distancing being maintained.

Precise details on our blended learning approach has been issued to all our learners. In accordance with public health measures and government guidelines there will be restricted access to the College. Our Learning Hubs, canteen etc. will all be open but in a more restricted manner. At LCFE, the safety and wellbeing of both learners and staff is paramount at all times.

We are delighted to have welcomed so many new learners this year and to welcome back all our 2nd year learners also. We will work together in a spirit of compassion and collaboration, which is the hallmark of the LCFE culture. Looking forward to a fantastic 2020/2021.
